

In 1994 ADVANCE entered the Ready-made garments (RMG) industry of the country primarily as a manufacturer of different type of garments accessories, Since then ,it has progressively diversified and by year 2000 established itself as a reliable manufacturer of a wide variety woven garments product .The following decade was one of capacity building in response to growing demand coupled with generous investment in compliance and quality assurance. Today we have attained a height where we have to operate in close collaboration with a number of associates for other items like knit, sweater products.

Presently we have been running two individual woven product manufacturing unit both are located at north part of the city .By these time we have been planed to move our production plant at our own building which are located at Asian high way in Manikonj district ,which is one and half hour driving distance from Zia International Airport Dhaka.

That complex would be international standard industrial building with cover all safety, health and eco-friendly environment.

We believe that every enterprise has a responsibility towards the people and environment of the areas in which it is located .In addition we affirm to the view that good human relations not only bring great personal rewards but are also essential to the success of any enterprise.

Consistent with this philosophy, our unit is **BSCI** approved .In addition; we are also certified by **SEDEX**

Apart from these certifications, our facility is also approved from other buyers who follow their own compliance procedures.
